to all conditions of the nasal appendage. Heat and perspiration will not interfere with the adhesive tendencies for which "Stic-Tites" are noted, while they also can be worn without annoyance because of their scientific construction.

It is almost impossible to realize what a difference in comfort there is between wearing a "Stic-Tite" and an ordinary mounting without having tested both.

"Stic-Tites" are fitted like tailor-made clothing which gives comfort and stylish appearance. We would be pleased at any time to prove to you the merits of "Stic-Tites."

Should you desire lenses we can also give you the benefit of 20 years experience in the fitting of lenses with all of the latest appliances.

Good Jewelry

Need not necessarily be high priced.

I am proving that every day. I want to prove it to you and your family.

I am conducting a jewelry store for the masses—a store for everybody—a store where you can get the best kind of jewelry at the right kind of prices—a store where good jewelry predominates, at a reasonable margin of profit.

Every article I sell is guaranteed. Every article is good, and I feel that my policy entitles me to the business of every man and woman—every family who wants their money to buy its utmost.
